ATTENTION CHEMICAL RIGHT-T-KNOW PROGRAM: HPV CHALLENGE

The Dow Chemical Company supports and is an active participant in the HPV Challenge Program, the ICCA Initiative and OECD SIDS through the U.S. EPA and other jurisdictions.

The chemical substances listed below had been reported by The Dow Chemical Company on the 1998 and 2002 Inventory Update Reports (IURs).

CASRN 96-23-1	1,3-Dichloro-2-Propanol
CASRN 616-23-9	2,3-Dichloro-1-Propanol

During 1997 and 2001 no production of these substances occurred, and the 1998 and 2002 IUR reports submitted by Dow for these chemicals was in error. Corrections to the 1998 and 2002 IUR report were submitted to EPA on October 17, 2003.

Dow is amending its November 30, 1999 letter and request these chemicals be identified as no longer HPV.

Dow requests confirmation from EPA that the substances are no longer HPV and will be removed from the chemicals subject to the HPV Challenge.

Sincerely,

Linda C. Burgert
